Administrative Action

INTERIM CONSENT ORDER

TO PRACTICE MEDICINE AND SURGERY
 IN THE STATE OF NEW JERSEY

This matter was opened to the New Jersey State Board of Medical Examiners (Board) upon receipt of information that the Division of Medical Quality of the Medical Board of California, Department of Consumer Affairs (California Board) entered an Order on January 10, 2005, against Mani Nambiar, M.D. (Respondent). The California Board Order finds Respondent committed gross negligence acts and repeated negligent acts, and was incompetent in his care and treatment of one patient during 2000 and 2001 when he performed liposuction on the patient, and she suffered a large abdominal wound and scarring. The Order also finds Respondent was dishonest when he submitted false information to a lender, and that he failed to maintain accurate and adequate records, in connection with his treatment of this patient.

As a result of the California Board's findings, the January 10, 2005 Order revokes Respondent's license to practice medicine and surgery. The California Board stayed Respondent's revocation and placed him on probation for five (5) years based upon the following conditions stated in the January 10, 2005 Order: Respondent must enroll in a Physician Assessment and Clinical Education Program, be monitored by a licensed physician throughout his probation period, complete sixty (60) Continuing Medical Education (CME) credits, complete an Ethics course, complete a Medical Record Keeping Course, pass an oral and/or written examination administered by the California Probation Unit and pay costs totaling \$29,897.72.

On February, 9, 2005, the California Board granted Respondent's request for a stay of the January 10, 2005 Order until March 11, 2005. Thereafter, on March 18, 2005, the Superior Court of California, San Francisco County, granted an Order staying the California Board's January 10, 2005 disciplinary decision until June 19, 2005. The March 18, 2005 Order allows Respondent to practice Gynecology but prohibits his practice of cosmetic or any other surgery until he fulfills a probationary condition requiring him to pass an examination. This matter is presently pending in the California Superior Court.

The Board and Respondent seek to resolve this matter on an interim basis without resort to further proceedings, and recognizing that Respondent agrees not to practice medicine in New Jersey until further order of this Board. The Board reserving the right to take further action, and finding the within Order is sufficiently protective of the public interest and for good cause shown,

IT IS ON THIS 25TH DAY OF JULY, 2005, ORDERED THAT:

1. Effective immediately, Respondent voluntarily agrees to, and shall cease and desist the practice of medicine in the State of New Jersey until further Board Order following the resolution of the underlying matters which address the California Board's January 10, 2005 Order.
2. At such time as Respondent receives notice of the resolution by the California

Board and/or the Superior Court of California, Respondent shall immediately provide to the Board copies of all orders and other relevant documents.

3. The Board reserves the right to require Respondent to appear before a Committee of the Board to demonstrate full satisfaction of this Order.

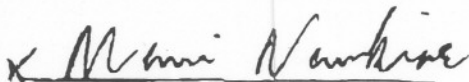

4. The Board may at any time hereafter exercise any authority conferred by law including but not limited to the institution of formal disciplinary proceedings regarding the California Board Order dated January 10, 2005 referenced above, or any action by the authorities of another state regarding Respondent's license to practice medicine.
